Our toughest construction truck

VOLVO FMX

When you need a partner that takes you where others can't, Volvo FMX is your choice. It's a robust construction truck that makes the toughest assignments even easier. Tailor it to your needs – and the conditions it will be up against.

The robust design of the Volvo FMX

The robust front with a steep approach angle, the skid plate and the steel bumper of the Volvo FMX all let you handle tough conditions: as do high ground clearance and sturdy axle installations.

Driven front axle and 38 tonnes bogie

Volvo FMX is available with one, two or three driven axles in a 6x6 configuration. By selecting our most heavy-duty alternatives you can take on even heavier loads with ease.

Choose your powertrain

Electric, diesel – any engine choice will provide impressive torque within a wide range of engine speeds.

BENEFITS

- Robust iconic design
- Ready for heavy loads
- Optimized vision with Camera Monitor System
- Body-builder friendly
- Electric, diesel powertrains available

Load up with smart features

The I-Shift automated gearbox times every gear change perfectly. Get your I-Shift with change-direction function and crawler gears or go with the I-Shift Dual Clutch. When driving on uneven surfaces Volvo Dynamic Steering helps filter out the kicks and jolts in the steering wheel.

Have it customized for you

Volvo FMX offers state-of-the-art cabs with high visibility and personalized infotainment. It's body builder-friendly and easy to tailor for your assignments.
